EDUCATION

Stony Brook University, Stony Brook, New York   **Aug 2019 – Dec 2020***
- Master of Science in Computer Science (Fall'19 Intake) : Current GPA: 3.67/4.0
- Graduate Coursework: Data Science, Computer Vision, Natural Language Processing, Analysis of Algorithms

IIIT Bangalore,Bangalore,India   **Sept 2018- Aug 2019**
- Post Graduate Diploma in Full Stack Software Development (Upgrad/Online)

SRM University-Kattankulathur,Chennai,India   **Aug 2011 - May 2015**
- Bachelor of Technology in Computer Science Engineering | CGPA: 9.52/10
- Coursework: Data Structures & Algorithms, AI, Data Mining, Image Processing, Operating Systems, Network Security

EXPERIENCE

Systems Software Engineer   **VISA Inc, Bangalore, India**   **Jul 2015 - Jul 2019**

BAU Role:
- Managed component provisioning for 250+ Linux/Windows VMs,handling configuration(IaaS) & deployment of infrastructure & services. Developed a Stack Test tool to test end to end auth flow from Proxy->Login-> Sharepoint home page for the app.
- Worked on Identity & Access Management systems, ensuring availability of 'Five 9's' and resolving OpenID (Forgerock), OAuth and Federation related issues on Production systems for a Tier 0 application, in coordination with vendor and PD teams.

Server Side Development:
- Worked on Jenkins jobs to enable continuous delivery pipeline for automating deployments in Production.
- Built alerting systems & Splunk dashboards for proactive monitoring and self-healing,thereby saving ~75% of manual effort hours.

3rd Party Integrations:
- Part of 90/10 initiative, developed a mobile app to facilitate Instant Payouts for Small Merchants using Stripe APIs.
- Developed a web app for Visa Exclusive Marketplace, a Loyalty-based project to incentivize existing VISA Cardholders boost card payments, in return for exclusive offers/rewards, using VISA APIs. Selected for Regional Finals, in Hackathon.
- Used Facebook's OAuth2.0 auth-protocol and Graph API for profiling cardholders' social media profiles, to extract their interests/likes for personalized offers.

Product Development Fellowship   **Hasura,Bangalore, India**   **Nov 2017 – Feb 2018**
- Implemented Chatbots for Social Media platforms, for my FB page. Link: https://hasura.io/hub/users/utkarsh/
- Developed Voice Skills for Amazon Alexa(live on Skill store). Gathered over 200+ activations within a month of Go-Live.
- Worked on Microservices & K8's clusters, while working with CNCF (Cloud-Native) systems.

Summer Intern   **HP, Lucknow, India**   **May 2013- July 2013**
- Worked on Securing Linux Servers from Network Attacks, using Backtrack OS. Recognized as the best performer in the batch.

PROGRAMMING SKILLS
- Languages: Java, Python, Javascript, C++, C, .NET, SQL
- Platforms & Tools: Spring Boot, PyTorch, TensorFlow, Keras, MEAN Stack, MySQL, Google Colab, GitHub, Visual Studio, Eclipse.

PROJECTS & RESEARCH
- **Retail Data Sales Anlaysis(Sklearn/Pandas)** Performed EDA on dataset of 1.7 million records for an Hardware store. Used Apriori for Market Basket Analysis, RFM for segmenting customers , WordCloud(T-SNE) for grouping related products , ARIMA modelling for time series forecasting . Also estimated Line psychology of a cashier while billing.
- **Pose Detection (Pytorch)**: Implemented PoseNet model on Human36M dataset to predict 3d poses from 2d sensor data. Implemented Kalman Filter to correct noisy measurements from faulty sensors.
- **Unified Summarization of Scientific Papers using Abstractive + Extractive Ensemble** : Developed on existing approaches to implement a Unified model using Bidirectional LSTM, evaluated on ROUGE scores => 43.08 recall.
- **Convolutional Neural Network (Deep Learning | Pytorch | TensorFlow | OpenCV):** Developed CNN model from scratch, to perform 16-way image classification, highest accuracy observed was 92% with fine tuning of Alex Net.
- **Scene Classification and Object Recognition using SVM (OpenCV/Sklearn):** Created Bag of SIFT feature representation of the images using KMeans Clustering and Histogram of gradients, trained SVM classifier.

AWARDS & CERTIFICATIONS
- **DevOps Certified** | Edureka | License https://edureka.co/verify | ID : BTTVBVTA
- **ITIL Certified** |APMG International | License ITIL/2000603220
- Recognised with '**Go Beyond'** award for my automation work at VISA Inc
- **Outstanding Performance** award at HP India, Ltd. during HPES Summer Internship
- **Immersive Data Science Program** | Greyatom | License https://www.credential.net/w95pzloj
- **Neural Networks and Deep Learning by deeplearning.ai** (Instructor: Andrew Ng)| Coursera | License 93XU2LHY83A9
- **Developing Applications with Google Cloud Platform Specialization** | Coursera | License A6XDCT7WBWHK
